INSTALLATIONS

VERSATILE

POWERFUL AND
VERSATILE FOR
DIFFERENT

Anystation Nano

Ultra-portable: With its tiny footprint, the Anystation Nano is easy to transport and fits into any space.

Versatile: Supports video playback on up to 4x 4K projectors or displays.

Perfect for small applications: Ideal for playback, digital signage, and compact immersive installations.

Anystation Micro

Compact yet powerful: Provides up to 8 outputs for visualization, digital signage, and interactive solutions across multiple projectors.

Flexible I/O configurations: Adapts to various setups with customizable input and output options. Versatility at Its Best: Excels in immersive projection, small domes, and advanced display applications.

Preinstalled software

Fully equipped with VIOSO 6 and EXAPLAY:

VIOSO 6: Automates and optimizes projection setups with advanced warping, blending, and color correction.

EXAPLAY: Provides smooth, high-resolution video playback with support for the latest GPU-based codecs.
